How to make a square box

1. Gather 2 sheets of origami paper, one slightly bigger than the other.

2. Start of with the zabuton shape, described in a separate tutorial.

3. Fold the top and bottom edges towards the centre.

4. Unfold back to the Zabuton and rotate 90°.

5. Fold the top and bottom edges towards the centre, making a rectangle.
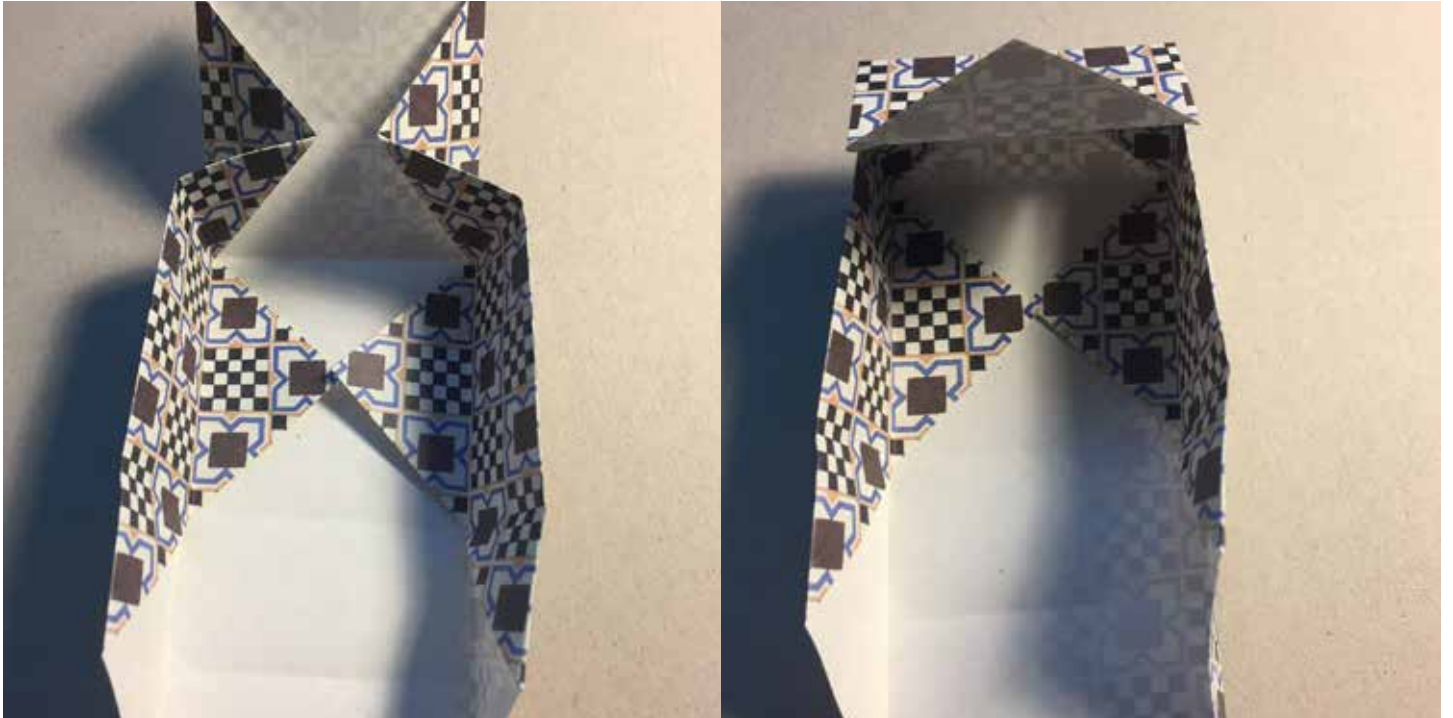

6. Unfold the left and the right sides.

7. Rotate 90° and lift the sides up.

8. Make the reverse folds at each corner of the box.

9. Fold the flap down to make the side of the box covering the side wall and the bottom of the box.

10. Repeat the previous steps to make the other side of the box.

11. Repeat the procedure in order to make the base of the box.
